Foundation

KMA Global specializes in training, inspection, internal audit, and consultancy services with an expert approach to your business' point of view. Our services empower your staff and organization with the right tools and knowledge. A continuous evolution is important for growth, be it business or an individual career. Our approach to that growth is through learning which is also in- sync with the industry norms and requirements. With these key tools, we give you the power to grow yourself!

KMA Global offers a comprehensive range of training courses which provide the participants with an opportunity of learning both theoretical & practical aspects, through a team of dedicated & experienced professionals. These training programs can be delivered at a central location (open programmes) or at the client's premises (in-house programmes).
